

Special Promotion : 99 Green Ideas by ASC members Felicity & Marc Bernstein

Are you looking for sustainable, more purposeful gifts this Christmas, that connect you with your loved ones while leaving a positive footprint on our planet?

We may have just found the perfect gift idea for you. ASC members Felicity and Marc Bernstein (Interior Design & Architects) have written and curated a beautiful coffee table book called " 99 Green Ideas ". It is jam-packed with 99 green ideas, many of which would make wonderful gifts , but it is also a fantastic gift in itself.

It is a great gift for both green beginners and green lovers, and for those not sure what they can do to enjoy a more sustainable lifestyle or interior. Also for young people and teens that would like some green inspo and ideas on how to upcycle some truly unique things for their room or to gift someone special in a green way. From up-cycling furniture to creating mason jar herb gardens to using natural fabrics in curtains, the new book *99 Green Ideas* offers a wealth of ideas to help make the apartment, home and life in general greener

This book is not just your ordinary coffee table book. It is an entertaining, inspiring, and educational masterpiece, that has the power to bring people together in a community for greater good. It takes you on a journey to discover the stories behind the products we use every day. The Fifth Estate recently reported that nine in ten Australians would prefer buying ethical and sustainable but often don't know where to find products accordingly. Our book gives hope and offers an abundance of green ideas for anyone's home and life, inspiring our readers to make easy, simple and beautiful home decor and lifestyle choices.

Filled with inspiring global ideas, it empowers you to make choices that have a positive impact on the planet, while celebrating the joy of living and growing together in a greener world. And with every single book sold, \$3 (approx \$4.50AUD) go towards fighting poverty, cleaning the oceans, and nurturing our planet with trees. It's inviting everyone to join the movement and to make the future more GREEN-SOME.

We love the **Sailing community**. Being a member we thought our members might enjoy this and would love to offer an exclusive discount of **40% OFF** (off the already reduced sales price - valid till the launch of the 14th of December) . The books are ready to be shipped from mid December from Melbourne (or can be picked up in Coburg) and should therefore reach everyone just in time for Xmas.

To order just click here.
